YOUR COMPUTER: THE MAP

One machine. Two ways to tell it what you want. A visible result.

SCAN & LEARN

WHY LEARN DATA STRUCTURES?

STRUCTURES = ORGANIZE

Where do we put information?

ALGORITHMS = STEPS

What do we do with information?

BIG-O = GROWTH

How much extra work appears?

REMEMBER

From a click or command to a result: DATA + INSTRUCTIONS + EXECUTION.

Remember: the terminal and the browser are not separate computers; they are apps that can use the same resources.
